Android GPS Exercise Directions

SET UP

Enable Bluetooth on Android Phone

1. You must enable Bluetooth on your phone to use the external GPS unit.
2. Under "Applications", select "Settings".
3. Select "Wireless and Networks".
4. Select "Bluetooth".
5. Tap "Bluetooth Enabled" to turn on Bluetooth connections.

Pairing with your Columbus GPS

1. Once Bluetooth is enabled you still need to tell your phone to connect with it. On the same menu, scroll down and tap "Scan for Devices".
2. Wait 1 minute for devices to appear.
3. Tap the "Columbus GPS" that appears.
4. If it asks for a PIN, enter 0000.

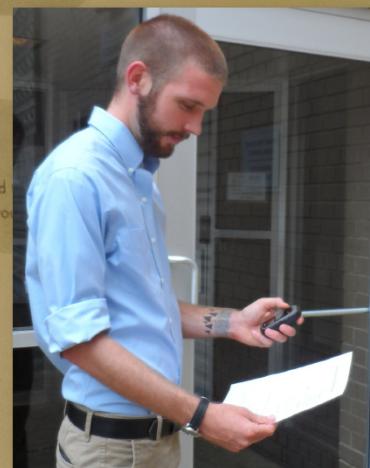

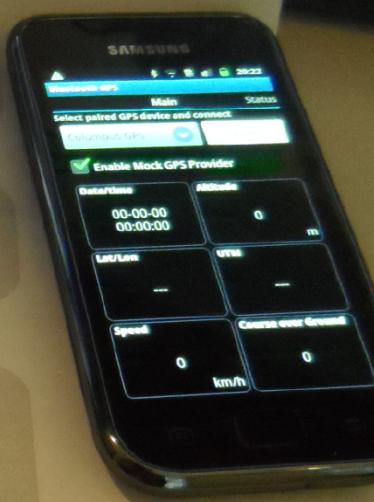

Connecting to your Columbus GPS

1. You are now paired, but not connected; your phone knows the GPS is there, but doesn't yet know it's supposed to use it.
2. Press the home button to return to your home screen.
3. Select the Bluetooth GPS app on your home screen.
4. Make sure Columbus GPS is selected on the dropdown.
5. Tap the check box on "Enable Mock Provider".
6. Select "Connect" to make your Columbus external GPS the standard GPS used by your smartphone.
7. Your GPS should make a noise (beep!).

Monitoring Your Signal

1. Select the "Status" tab along the top of your app.
2. This screen shows the number of satellites you are connected to and of your connection but most importantly, it shows the accuracy of yo
